  16. Individual Healthcare Plans (IHPs)
  17. Unacceptable Practice
  18. Appendix 1 - Outline of Legal Framework  
Appendix 2 - Healthcare Forms
1. Key Principles

The staff and governors of Rumney Primary School are wholly committed to pursuing a policy of inclusive education that welcomes and supports learners with healthcare needs. This policy is designed to ensure that, to the best of our ability, all learners are able to access their education in a supportive environment, which is sensitive to any healthcare needs. It supports the management of medication and healthcare needs in school, and individuals with specific healthcare needs.

At Rumney Primary School we understand that healthcare needs should not be a barrier to learning, so we ensure that all staff understand their duty of care to children and young people in the event of an emergency and feel confident in knowing what to do in an emergency.

This policy identifies the roles and responsibilities of school, parents and learners. Effective communication and cooperation between home and school will enable our key principles to be achieved.

Our policy has been written in consultation with a wide range of local key stakeholders within school and complies the Welsh Government Guidance 'Supporting Learners with Healthcare Needs' (published on 30th March 2017). We also acknowledge and can refer to the Cardiff Local Authority toolkit entitled 'Meeting the Healthcare Needs of Children and Young People in Cardiff – A toolkit for Early Years School and Schools' (April 2017) for further information, in particular, the management of specific medical conditions.

- 1.1 Each child, including learners with healthcare needs, is an individual developing in their own individual way; our aim is to encourage every child to see for themselves their own talents, to foster self-confidence, and to develop a sense of personal adequacy, enabling them to cope with the environment, at a level appropriate to that child.
- 1.2 We recognise that healthcare issues affect each learner individually and support from Rumney Primary School may have an impact on their quality of life and future chances. Therefore, the Governing Body and Head teacher ensure that arrangements focus on meeting the needs specific to the learner and they consider how this impacts on their education, attainment and wellbeing. They seek to provide arrangements which give learners and parents' confidence that provision is suitable and effective.

## **2. School's legal requirements**

- 2.1 Section 175 of the Education Act 2002 places a duty on local authorities and governing bodies to make arrangements to ensure their functions are exercised with a view to safeguarding and promoting the welfare of children in school or another place of learning. This includes supporting learners with healthcare needs.
- 2.2 In meeting the duties under section, 175 of the Education Act 2002, local authorities and governing bodies must have regard to guidance issued by the Welsh Ministers under this section.
- 2.3 Section 21 (5) of the Education Act 2002 places a duty on governing bodies to promote the wellbeing of learning at the school so far as related to the matters mentioned in section 25(2) of the Children Act 2004, which includes physical and mental health and emotional wellbeing, education, training and recreation, and social well being
- 2.4 The non-statutory advice contained within the document is issued in exercise of the Welsh Ministers' duty to promote the education of the people of Wales and their power in relation to the promotion or improvement of the economic, social and environmental wellbeing in Wales
- 2.5 Being mindful of the Social Services and Wellbeing (Wales) Act 2014. Rumney Primary School is aware of this approach and ensures assistance to learners is provided using a holistic approach.

## **3. Roles and responsibilities**

### **3.1 School**

Rumney Primary School develops and implements arrangements in line with legal requirements

### **3.2 Governing Body**

The Governing body oversees the development and implementation of arrangements, which includes:

- Complying with applicable statutory duties, including those under the Equality Act 2010 (e.g. the duty to make reasonable adjustments in respect of learners with healthcare needs if they are disabled)
- Having a statutory duty to promote the wellbeing of learners. Rumney Primary School should give consideration to how they can meet these needs, including providing learners access to information and material aimed at promoting spiritual and moral wellbeing and physical and mental health (Article 17 of the UNCRC)
- Considering how they can support learners to develop the skills, knowledge and emotional resilience required to uphold their rights, and the rights of others
- Ensuring the roles and responsibilities of all those involved in the arrangements to support the healthcare needs of learners are clear and understood by all those involved, including any appropriate delegation of responsibilities or tasks to a headteacher, member of staff or professional as appropriate
- Working collaboratively with parents and other professionals to develop healthcare arrangements to meet the best interests of the learner
- Developing and implementing effective arrangement to support learners with healthcare needs. This includes this policy on healthcare needs and where appropriate, IHPs for particular learners
- Ensuring arrangements are in place for the development, monitoring and review of the healthcare needs arrangements
- Ensuring the arrangements are in line with other relevant policies and procedures, such as health and safety, first aid, risk assessments, the Data Protection Act 1998, safeguarding measures and emergency procedures
- Ensuring robust systems are in place for dealing with healthcare emergencies and critical incidents, for both on and off site activities, including access to emergency medication such as inhalers or adrenaline pens
- Ensuring staff with responsibility for supporting learners with healthcare needs are appropriately trained
- Ensuring appropriate insurance cover is in place, any conditions are complied with and staff are clear on what this means for them when supporting learners
- Having a Health and Safety Policy together with guidance on infection prevention that fully reflects the procedures laid out in current guidance

### **3.3 Head teacher:**

The head teacher ensures arrangements to meet the healthcare needs of learners are sufficiently developed and effectively implemented. This includes:

- Working with the governing body to ensure compliance with applicable statutory duties when supporting learners with healthcare needs, including duties under the Equality Act 2010
- Ensuring the arrangements in place to meet a learner's healthcare needs are fully understood by all parties involved, acted upon and actions maintained. The day-to-day management of a learner's healthcare needs is the responsibility of identified staff with the head teacher directly supervising this arrangement as part of the regular reporting and supervision arrangements
- Ensuring the support put in place focuses on and meets the individual learner's needs, also known as person centred planning
- Extending awareness of healthcare needs across Rumney Primary School in line with the learner's right to privacy. This may include support, catering and supply staff, governors, parents and other learners
- Appointing a named member of staff who's responsible for learners with healthcare needs, liaising with parents, learners, the home tuition service, the local authority, the key worker and others involved in the learner's care
- Ensuring a sufficient number of trained staff are available to implement the arrangements set out in all IHPs, including contingency plans for emergency situations and staff absence
- Having the overall responsibility for the development of IHPs
- Ensuring that learners have an appropriate and dignified environment to carry out their healthcare needs e.g. private toilet areas for catheterisation
- Checking with the local authority whether particular activities for supporting learners with healthcare needs are appropriately covered by insurance and making staff aware of any limits to the activities that are covered
- Ensuring all learners with healthcare needs are supported by Rumney Primary School's linked healthcare professionals
- Ensuring when a learner participates in a work experience placement or similar, that appropriate healthcare support has been agreed and put in place
- Providing annual reports to the governing body on the effectiveness of the arrangements in place to meet the healthcare needs of learners
- Ensuring all learners with healthcare needs are not excluded from activities they would normally be entitled to take part in without a clear evidence based reason
- Notifying the local authority when a learner is likely to be away from Rumney Primary School for a significant period, e.g. three weeks due to their healthcare needs. Ultimately, what qualifies a period of absence as 'significant' in this context depends upon the circumstances and whether the school can provide suitable education for the learner. Shorter periods of absence may be significant depending upon the circumstances
- Being mindful of the Social Services and Wellbeing (Wales) Act 2014. Rumney Primary School is aware of this approach and ensures assistance to learners is provided using a holistic approach.

### **3.4 Teachers, Support Staff and all members of staff (e.g. catering staff and reception staff);**

Any staff member within Rumney Primary School may be asked to provide support to learners with healthcare needs, including assisting or supervising the administering of medicines. This role is voluntary, unless it forms part of their contract, terms and conditions or a mutually agreed job plan.

In addition to the training provided to staff that have volunteered or are contracted to support learners with healthcare needs, Rumney Primary School ensures that staff:

- Fully understand Rumney Primary School's healthcare needs policy and arrangements
- Are aware of which learners have more serious or chronic healthcare needs, and, where appropriate, are familiar with these learners' IHPs. This includes knowing how to communicate with parents and what the triggers for contacting them are, such as when the learner is unwell, refuses to take medication or refuses certain activities because of their healthcare needs
- Are aware of the signs, symptoms and triggers of common life threatening medical conditions and know what to do in an emergency. This includes knowing who the first aiders are and seeking their assistance if a medical emergency takes place
- Fully understand Rumney Primary School's emergency procedures and are prepared to act in an emergency
- Ask for and listen to the views of learners and their parents, which are taken into consideration when putting support in place
- Ensure learners (or their friends) know who to tell if they feel ill, need support or changes to support
- Listen to concerns of learners if they feel ill at any point and consider the need for medical assistance (especially in the case of reported breathing difficulties)
- Make sure learners with healthcare needs are not excluded from activities they take part in without a clear evidence based reason, including any external trips/visits. This includes ensuring learners have access to their medication and that an appropriately trained member of staff is present to assist where required
- Are aware of bullying issues and emotional wellbeing regarding learners with healthcare needs, and are prepared to intervene in line with Rumney Primary School's policy
- Are aware that healthcare needs can impact on a learner's ability to learn and provide extra help when needed
- Support learners who have been absent and assist them with catching up on missed work – this may involve working with parents and specialist services
- Keep parents informed of how the healthcare needs is affecting the learner in Rumney Primary School. This may include reporting any deterioration, concerns or changes to learner or staff routines.

### **3.5 Parents/Carers/Learners**

It is vital that learners and parents are actively involved in the planning of support and management of healthcare needs. Meeting the individual's needs should be at the

centre of decision making and processes. The UNCRC states learners should have access to appropriate information essential for their health and development and have opportunities to participate in decisions affecting their health.

#### 3.5.1 Parents and learners should:

- Receive updates regarding healthcare issues/changes that occur within Rumney Primary School
- Be involved in the creation, development and review of an IHP. The parent and learner may be best placed to provide information about how their healthcare needs affect them. They should be fully involved in discussions about how the learner's healthcare needs will be met in Rumney Primary School, and contribute to the development of, and compliance with, their IHP
- Provide Rumney Primary School with sufficient and up to date information about healthcare needs, including any guidance regarding the administration of medicines and/or treatment from healthcare professionals. Where appropriate, learners should be encouraged and enabled to manage their own healthcare needs
- Inform Rumney Primary School of any changes such as type of medication, dosage and administration instructions
- Ensure a nominated adult is contactable at all times and all necessary forms are completed and signed
- Inform Rumney Primary School if their child has/had an infectious disease or condition while in attendance.

### **3.6 Local Authority**

Cardiff Local Authority ensures education provision is available to learners, and:

- Must make reasonable adjustments to ensure disabled children and young people are not at a substantial disadvantage compared with their peers. This duty is anticipatory. For example, learners should not be disadvantaged when leaving primary school and beginning secondary school. In practical terms, this means adjustments must be planned and implemented in advance to prevent any disadvantage. Discussions around responsibility for provision should not impact on the delivery of service, as delays could be detrimental to the education and wellbeing of the learner
- Must make arrangements to promote cooperation between various bodies or persons, with a view to improving, among other things, the wellbeing of children in relation to their physical and mental health, their education, training and recreation. When making these arrangements, local authorities should ensure appropriate agreements are in place for data sharing. This could be through working within the Wales Accord on Sharing Personal Information (WASPI) Information Sharing Protocols or Data Disclosure Agreements
- Must make reasonable provision of counselling services for learners in Year 6 of primary school. Within schools, this provision should complement the different

approaches already in place to support the health, emotional and social needs of learners

- Should work with Rumney Primary School to ensure learners with healthcare needs receive a suitable education. Where a learner of compulsory school age would not receive a suitable education for any period because of their health, the local authority has a duty to make arrangements to provide suitable education. If a learner is over that compulsory school age but under 18, the local authority may make such arrangements
- Should provide support, advice and guidance, including how to meet the training needs of Rumney Primary School staff, so that governing bodies can ensure the support specified within the individual healthcare plan (IHP) can be delivered effectively.

### **3.7 NHS Wales school health nursing service, health and other professionals, third sector organisations and other specialist services**

Healthcare and practical support can be found from a number of organisations. Rumney Primary School has access to a health advice service via the school nurse. The scope and type of support the service can offer may include:

- Offering advice on the development of IHPs
- Assisting in the identification of the training required for the school to successfully implement IHPs
- Supporting staff to implement a learner's IHP through advice and liaison with other healthcare, social care and third sector professionals

Health advice and support can also be provided by specialist health professionals such as GPs, paediatricians, speech and language therapists, occupational therapists, physiotherapists, dieticians and diabetes specialist nurses. In addition, third sector voluntary bodies may provide advice and practical support.

## **4. Creating an accessible environment**

The school, the Governing Body and Cardiff Local Authority work to ensure that Rumney Primary School is inclusive and accessible making reasonable adjustments for learners with healthcare needs. This includes the following:

### **4.1 Physical access to Rumney Primary School buildings**

A duty is placed on the local authority to produce a written accessibility strategy for all schools they are responsible under the Equality Act 2010. This strategy is expected to address:

*'improving the physical environment of schools for the purpose of increasing the extent to which disabled learners are able to take advantage of education and benefits, facilities or services provided or offered by schools'* (schedule 10, Equality Act 2010)

Similarly, the school carries out accessibility planning and are under a duty to prepare an accessibility plan. This ensures that learners with disabilities are able to take advantage of education, facilities or services provided or offered by the school.

#### **4.2 Reasonable adjustments – auxiliary aids or services**

The Equality Act 2010 places a duty on the school to make 'reasonable adjustments' for learners who are disabled as defined by the Act. In regard to these learners, auxiliary aids or services (with the appropriate number of trained staff) are provided by the school when necessary.

#### **4.3 Day trips and residential visits**

- 4.3.1 The Governing Bodies ensures that Rumney Primary School actively supports all learners with healthcare needs to participate in trips and visits. The Governing Body is aware of its legal requirements to make reasonable adjustments to trips and residential visits ensuring full participation from all learners.
- 4.3.2 Staff are aware of how a learner's healthcare needs may impact on participation, and seek to accommodate any reasonable adjustments which would increase the level of participation by the learner. Staff consider how to accommodate the sharing of personal information with third parties if necessary for off-site activities (in compliance with the Data Protection Act 1998 and in respecting the learner's rights to privacy). This may include information about the healthcare needs of learners, what to do in an emergency and any additional support, medication or equipment needed.
- 4.3.3 Additional safety measures to those already in place in the school may be necessary to support learners with health care needs during visits or activities outside of the normal school timetable. Arrangements for taking medication and ensuring sufficient supplies for residential visits may be required. All staff supervising visits are aware of a learner's healthcare needs and any medical emergency procedures.

Parents may be asked to supply:

- Details of medical conditions
- Emergency contact numbers
- The learner's GP's name, address and phone number
- Information on whether the learners has spent a night away from home before and their ability to cope effectively
- Written details of any medication required (including instructions on dosage/times)
- Parental permission if the young people needs to administer their own medication or agreement for a volunteer staff member to administer
- Information on any allergies/phobias
- Information on any special dietary requirements

- Information on any toileting difficulties, special equipment or aids to daily living
- Special transport needs for learners and young people who require help with mobility
- 'Fit to travel' certificate written by the GP/consultant if the child has a significant medical need (without this the insurance may be invalid)

#### **4.4 Social Interactions**

The Governing Body ensures the involvement of learners with healthcare needs is adequately considered in structured and unstructured social activities, such as during breaks, breakfast club, productions, after hours clubs and residential visits. A proactive approach is employed to remove any barriers.

#### **4.5 Exercise and physical activity**

4.5.1. Rumney Primary School fully understands the importance of all learners taking part in physical activities and staff make appropriate adjustments to sports and other activities to make them accessible to all learners, including after-hours clubs and team sports.

4.5.2. Staff are aware of learners' healthcare needs and potential triggers. They know how to respond appropriately and promptly if made aware that a learner feels unwell. They seek guidance when considering how participation in sporting or other activities may affect learners with healthcare needs.

4.5.3. Separate 'special provisions' for particular activities are avoided, with an emphasis instead on activities being made accessible for all. Where this might not be possible, advice from healthcare or physical education professionals and the learner is sought.

4.5.4. Staff understand that it may be appropriate for some learners with healthcare needs to have medication or food with them during physical activity; such learners are encouraged to take the medication or food when needed.

#### **4.6 Food Management**

4.6.1. Where food is provided by or through Rumney Primary School, consideration is given to the dietary needs of learners, e.g. those who have diabetes, coeliac disease, allergies and intolerances

4.6.2. Where a need occurs, Rumney Primary School in advance provides menus to parents and learners, with complete lists of ingredients and nutritional information. Gluten and other intolerances or allergens are clearly marked. Providing information helps facilitate parent and catering teams' collaborative working. This is especially important when carbohydrate counting is required. Consideration is given to availability of snacks. Sugar and gluten free alternatives are always available. As some conditions require high calorific intake, there is access to glucose rich food and drinks as needed.

4.6.3. Food provided for trips reflects the dietary and treatment needs of the learners taking part. Food provided for snacks in classroom schools also takes the dietary and treatment needs of these learners into account. While healthy school and 'no sweets' policies are recognised as important, learners with healthcare needs are exempted from these policies as required.

#### **4.7 Risk assessments**

4.7.1. Staff are clear when a risk assessment is required and are aware of the risk assessment systems in place. They start from the premise of inclusion and have built into them a process of seeking adjustments or alternative activities rather than separate provision.

4.7.2. In addition, there are duties under the Equality Act 2010 to prepare and implement accessibility strategies and plans. These strategies and plans deal with matters related to increasing participation of disabled learners.

### **5. Sharing Information**

The Governing body ensures healthcare needs arrangements and wider Rumney Primary School policies and IHPs, are supported by clear communication with staff, parents and other key stakeholders to ensure full implementation. All information is kept up to date and all information sharing such as staff notice boards and school intranets are agreed by the learner and parent/ carer in advance of being used, to protect confidentiality.

#### **5.1. Teachers, supply teachers and support staff (including catering staff and relevant contractors)**

5.1.1. Staff have access to the relevant information, particularly if there is a possibility of an emergency situation arising. This includes:

- Following appropriate consent, a notice board in the staff room is used to display information on high risk health needs, first aiders and emergency procedures.
- Electronic shared drives and staff meetings are utilised to help ensure staff are aware of the healthcare needs of learners they have or may have contact with.

#### **5.2. Parents and learners**

5.2.1. Parents/carers and learners are active partners, and to achieve this Rumney Primary School makes parents/carers fully aware of the care their child receives. Parents/carers and learners are also made aware of their own rights and responsibilities. To help achieve this Rumney Primary School:

- Makes healthcare needs policies easily available and accessible, online and in hard copy (if requested)

- Provide the learner/parents/ carers with a copy of the information sharing policy on request. This states the type of bodies and individuals with whom the learner's medical information may be shared
- Ask parents/ carers to sign a consent form, which clearly details the bodies, individuals and methods through which information will be shared, involving the learner in any decisions as appropriate to their age and stage of development
- A web link to the healthcare needs policy is on the school website
- School councils, 'healthy schools' and other learner groups are involved in the development of the school's healthcare needs arrangements, where appropriate
- The school considers how friendship groups and peers may be able to assist learners, as appropriate to the individual learners e.g., they could be taught the triggers and signs of issues for a learner, know what to do in an emergency, and who to ask for help. Rumney Primary School discusses this with the learner and parents first and decides if information can be shared.

## **6. Procedures and record keeping for the management of learners' healthcare needs**

6.1. The school has procedures which state the roles/responsibilities of all parties involved in the identification, management and administration of healthcare needs. The following documentation is collected and maintained, where appropriate. These forms and templates can be found in Appendix 2.

- Contact details for emergency services
- Healthcare Plan
- Parental agreement for school to administer medicine
- Record of medicines administered to all learners
- Request for child to carry his/her own medicine
- Medication/healthcare incident report

6.2 New records are completed when there are changes to medication or dosage. The school ensures that the old forms are clearly marked as being no longer relevant and stored in line with the information retention policy.

6.2.1. All administration of medication is recorded on the appropriate forms. If a learner refuses their medication, staff record this and inform parents of this non-compliance immediately.

## **7. Storage, access and the administration of medication and devices**

Learners may require medication at school for many reasons and this is only administered with prior agreement and consent given by the parent/legal guardian. Medicines will only be given if prescribed by the GP.

A learner requiring medication will require an Individual Healthcare Plan (IHP) or a completed and signed administration of medicine form.

### **7.1 Arrangements to give medication in Rumney Primary School**

- A parental request form is completed each time there is a request for medication to be administered (Form 3 in Appendix 2) by school staff, or for a learner to self-administer their own medication. This arrangement is agreed, documented and dated. A copy is kept on file.
- In the case where medication maybe a long term arrangement, a letter must accompany the request from the learner's GP or consultant explaining this.
- Amendments to the medication are only accepted in writing from a health professional and this is kept on file. **Verbal messages are not accepted.**

### **7.2 Receiving medication in Rumney Primary School**

No medication is accepted into the school unless it is clearly labelled with the:

- Learner's name
- Name and strength of medication
- Dosage, frequency and time the medication should be given
- Expiry date
- Advice about storage

### **7.3 Storage of medication**

- Medication is stored in a locked cupboard away from other children and young people. The key is kept in an accessible place known to the designated members of staff. Some medications require refrigeration. If storage in a refrigerator is required this is in a sealed container that is clearly labelled. All medicines must be clearly labelled. Further advice can be obtained from the **COSHH guidelines, Control of Substances Hazardous to Health, 2002<sup>1</sup>**
- Learners will have easy access asthma inhalers. This is reflected in the learners' asthma plan.

### **7.4 Administering medication**

- Any staff administering medication receive appropriate training and guidance and are aware of any possible side effects from the medication. This can be found in the information leaflet.
- Parents must not send medication to school in pre-drawn doses/syringes (unless this is how it is dispensed by the pharmacist) or in drinks. It must come in the original packaging with a pharmacy label intact. There must be a syringe provided to help in the measurement of the correct dose.

---

<sup>1</sup>Control of Substances Hazardous to Health (COSHH) Regulations (2002) amended as required [www.hse.gov.uk](http://www.hse.gov.uk)

- Medicines must only be given according to the prescription given by the GP. Parents should ensure a copy of this is available for the school. School requires written notification from the GP should doses change or medications change.
- Medicines should not be given if they are out of date. Parents will need to replace the medicines immediately and it is the parent's responsibility to dispose of any unwanted medicines.
- It is best practice that there should be two members of staff to check the medication when it is time to administer it. The following details should be checked:
  - **Right Learners** (name and date of birth)
  - **Right Medicine** (staff should be aware of the purpose of the medication)
  - **Right Dose** (measured using a syringe)
  - **Right Route** (orally/gastrostomy/nasogastric)
  - **Right Time**
- The learner may self-administer some medications e.g. asthma inhalers. It is made clear in the forms relating to medications in school whether the learner requires supervision or not and a record is kept of self-administered medication.
- Appropriate measures are put in place or alternative arrangements if named staff are unavailable or absent.
- A completed form (Form 4 in Appendix 2) to show the learner's name, the date, time and medication name and dose, signed by the member of staff who has administered the medication, is kept. Accurate recording is of the utmost importance.
- Staff will not give any medication if a medical judgement is required to determine the need, unless it is an emergency; this should be in accordance with the agreed IHP and /or asthma care plan

### **7.5 Hygiene and Infection Control**

- All staff are familiar with normal procedures for avoiding infection and follow basic hygiene procedures. Staff have access to protective disposable gloves and take care when dealing with spillages of blood or other body fluids and disposing of dressing or equipment.

### **7.6 Disposal of medications**

- Medication is returned to the parent/ carer to be disposed of, or, if this is not possible any unused medications is returned to a local pharmacy
- Medications are not disposed of in sinks or toilets
- Some medications (i.e. for diabetes) are pre-assembled and contain a needle. Sharps boxes are essential for the disposal of needles and are obtained by contacting the local pharmacy or speaking to our Rumney Primary School nurse.

### **7.7 Emergency Medications**

- Emergency medications (i.e. epi pen, buccal midazolam) have an IHP detailing how to administer it and what to do in the event of an emergency

- The location of emergency medications is known and accessible to all staff but not accessible to children
- Emergency medications are not used for another learner displaying the same symptoms. If there are concerns an ambulance is called. Medication can only be given to the learner it is intended for
- Staff receive training in how to administer any emergency medications. If a learner forgets their emergency medications the parent/carer must either bring it in immediately or the learner must go home
- Parents are always informed if emergency medications have been given and records are retained at the school.

## **8. Emergency Procedures**

8.1. The Governing Body ensures a policy is in place for handling emergency situations. Staff know who is responsible for the policy, nominated first aiders and how to deal with common healthcare needs. In situations requiring assistance, 999 is called immediately. The location of learners' healthcare records and emergency contact details are known to staff.

8.2. Where a learner has an IHP, this clearly defines what constitutes an emergency and explains what to do. Staff are made aware of emergency symptoms and procedures.

8.3. Learners at Rumney Primary School know what to do in general terms in an emergency, such as to inform a member of staff immediately. If a learner needs to be taken to hospital, a staff member will stay with the learner until a parent/carer arrives. This includes accompanying them in an ambulance to hospital. The member of staff will have details of any known healthcare needs and medication.

8.4. Learners will be taken to hospital in staff cars unless there are extreme reasons. If this is necessary, another adult must accompany learner and staff member. Staff must have public liability vehicle insurance.

## **9. Training**

9.1 The Governing body ensures that staff who volunteer or who are contracted to support those with healthcare needs are provided with appropriate training. The Governing Body also ensures their policies clearly set out how a sufficient number of these staff will be identified and supported.

9.2 When assisting learners with their healthcare needs, it is recognised that for many interventions no specialist training is required and the role of staff is to facilitate the learner to meet their own healthcare needs.

9.3 IHPs may reflect complex needs requiring staff to have specific information and training. This training may also be in the use of aids such as hearing aids (staff should be shown how to change batteries) and various adaptive technologies. If these have been instigated by

health professionals, they may be asked to provide suitable training for Rumney Primary School, if needed, as well as learners and families.

9.4 Training provided will be sufficient to ensure staff are competent, have confidence in their ability to support learners and fulfil IHP requirements. Crucially this training will involve input from the learner and parents, who often play a major role in providing information on how needs, can be met. However, parents are not solely relied upon to provide training about the healthcare needs of their child.

9.5 If a learner has a complex needs, input may be needed from healthcare services and the local authority who will be able to advise and signpost to further training and support.

9.6 All staff, irrespective of whether they have volunteered to assist or support learners with healthcare needs, may come into contact with learners who have healthcare needs. It is therefore advisable that all staff have a basic understanding of common conditions to ensure recognition of symptoms and understand where to seek appropriate assistance. For further information with regard to common conditions see Cardiff Local Authority Healthcare Toolkit.

9.7 All staff will be made aware of all pupils who have an IHP and /or asthma care. New and temporary staff should be made aware of what preventative and emergency measures are in place so staff can recognise the need for intervention and react quickly.

9.8 Procedures will be in place for the alternative administration of medication if the trained staff are not available. This also needs to be addressed in risk assessment and planning of off-site activities.

## **10. Qualifications and assessments**

10.1 Efficient and effective liaison is imperative when learners with healthcare needs are approaching assessments. Liaison between Rumney Primary School and the hospital teacher or home tutor is most important, especially where the learner is moving from Rumney Primary School or home to the hospital on a regular basis.

10.2 Awarding bodies may make special arrangements for learners with permanent or long term disabilities and learning difficulties, or temporary disabilities and illnesses, who are taking National Tests. Applications for special arrangements should be submitted by the school to the awarding bodies as early as possible. Full guidance on the range of special arrangements available and the procedures for making applications is given in the Joint Council for Qualifications' circulars Adjustments for candidates with disabilities and learning disabilities (2016).

## **11. Education other than at school (EOTAS)**

11.1 A learner who is unable to attend Rumney Primary School because of their healthcare needs will have their educational needs identified, and receive educational support quickly so they continue to be provided with suitable education. The nature of the provision should be responsive; reflecting the needs of what may be a changing health status.

11.2 Where absences are anticipated or known in advance, close liaison between the school and local authority will enable the EOTAS service to be provided from the start of the absence.

11.3 Cooperation between education, health and administration staff in hospital is essential. The aim will be to achieve the greatest possible benefit for the learner's education and health, which should include the creation of an atmosphere conducive to effective learning. Parents/carers can also be a valuable link.

11.4 Learners with complex healthcare needs may be discharged from hospital with a written care plan. Where this happened, the written care plan should be integrated into any IHP.

## **12. School transport**

12.1 There is a statutory duty on Cardiff Local authority, the Headteacher and Governing Body in relation to learners travelling to the place where they receive their education or training. For example, depending upon the circumstances, the local authority may need to arrange home to school transport for a learner, or provide appropriately trained escorts for such journeys to facilitate the attendance of a learner.

## **13. Reviewing policies, arrangements and procedures**

13.1 The Governing body ensures all policies, arrangements and procedures are reviewed regularly by Rumney Primary School. IHPs may require frequent reviews depending on the healthcare need – this will involve all key stakeholders including, where appropriate, the learner, parents, education and health professional and other relevant bodies.

## **14. Insurance arrangements**

14.1 The Governing Body at Rumney Primary School ensures an appropriate level of insurance is in place to cover the school's activities in supporting learners with healthcare needs. The level of insurance appropriately reflects the level of risk. Additional cover may need to be arranged for some activities or healthcare procedures for learners with particular needs. For further guidance refer to Cardiff's Local Authority Toolkit – *Supporting learning with healthcare needs (April 2017)*.

## **15. Complaints procedure**

See Rumney Primary complaints procedure policy

## **16. Individual Healthcare Plans (IHP)**

16.1 The Governing Body ensures that Rumney Primary School's policy covers the role of IHPs, and who is responsible for their development in supporting learners at Rumney Primary School with medical conditions.

16.2 We recognise that an IHP (See Form 2, in Appendix 2) can assist the school in identifying the necessary safety measures to support the learner with a healthcare need and ensure that they and others are not put at risk. An IHP will often be essential, such as cases where conditions fluctuate or where there is a high risk that emergency intervention will be needed.

They are likely to be helpful in the majority of cases, especially where the medical condition is long term and complex. However, not all children and young people will require one.

16.3 An Individual Health Care Plan can clarify for school, parents and the learner the help that the school can both provide and receive. There will be a level of flexibility to account for any unexpected changes in the learner's healthcare needs.

## **16.2 Roles and Responsibilities in the creation and management of IHPs**

16.2.1 IHPs do not need to be complex but they should explain how the learner's needs can be met. AN IHP should be easily accessible to all who need to refer to it, while maintained the required levels of privacy. Each plan should capture key information and actions required to support the learner effectively.

16.2.2 **A health professional must take a lead role in writing a Health Care Plan;** this could be the school nurse, specialist nurse, special needs health visitor or consultant. Their knowledge of the condition, medication, emergency procedures and the learner is paramount. This should be completed involving:

- ✓ The learner (where possible)
- ✓ Parent/carer
- ✓ Input or information from previous education school
- ✓ Appropriate healthcare professionals
- ✓ Social care professions
- ✓ Head teacher and/or delegated responsible individual for healthcare needs across the school
- ✓ Teacher and support staff, including catering staff if necessary

- ✓ Any individual with relevant roles such as a first aid coordinator, a well-being officer and ALNCo (Additional Learning Needs Coordinator)
- ✓ School staff who have agreed to administer medication or be trained in emergency procedures

#### **An Individual Healthcare Plan (IHP) may include:**

- ✓ The medical condition: its triggers, signs, symptoms and treatments and how it is managed on a day to day basis, in particular during school hours
- ✓ The learner's needs: including medication (dose, side effects and storage) and other treatments; time; facilities; equipment; testing; access to food and drink where this is used to manage their condition; dietary requirements; and environmental issues e.g. crowded corridors, travel time between lessons
- ✓ Specific support for the learner's educational, social and emotional needs
- ✓ The level of support needed (some learners will be able to take responsibility for their own healthcare needs) including in an emergency
- ✓ Who will provide this support, their training needs and expectations of their role
- ✓ Who in the school needs to be aware of the learner's healthcare needs and the support they require
- ✓ Protocol for exchanging information between education and health (if necessary)
- ✓ Written permission from parents and the Head Teacher for the administration of medicines by staff or self-administration by the learner during school hours
- ✓ Separate arrangements or procedures required for school trips or other school activities outside of the normal school timetable that will ensure the learner can participate e.g. risk assessments
- ✓ Where confidentiality issues are raised by the parent/child/young person, the designated individuals to be entrusted with information about the child's condition
- ✓ Home to school transport – this is the responsibility of the local authority
- ✓ Emergency Procedures including whom to contact, and contingency arrangements. Some learners may have an emergency health care plan prepared by their lead clinician that could be used to inform the development of their individual health care plan
- ✓ An impact statement jointly produced by healthcare professional and a teacher) on how the learner's healthcare condition and/or treatment affects their learning and what actions are required to mitigate these effects
- ✓ Review date

16.2.3 If the plan needs revising Rumney Primary School and health professional will meet with the parents and a new plan will be written and signed by all parties.

16.2.4 The plan will also be made available to **all staff** coming into contact with the learner

16.2.5 If the learner's condition is degenerative or life threatening, the plan will reflect these additional needs and provide sufficient information to school staff. The plan will include details of the condition, what to do and who to contact in an emergency. More frequent reviews will be required for those with conditions that are technologically dependent or potentially life limiting.

16.2.6 In most cases, especially concerning short term illnesses such as those requiring a course of antibiotics, a detailed IHP will not be necessary. In such circumstances it may be sufficient to record the name of medication, dosage, time administered and any possible side effects. These procedures should be confirmed in writing with the learner (where appropriate), the parents and Rumney Primary School.

### **16.3 Coordinating information with healthcare professional in the learner and parents**

The way in which a learner's healthcare needs are shared with social and healthcare professionals depends on their requirements and Rumney Primary School. The IHP should explain how information is shared and who will do this. This individual can be a first point of contact for parents and staff and would liaise with external agencies.

### **16.4 Confidentiality**

It is important that relevant staff (including temporary staff) are aware of the healthcare needs of their learners, including changes to IHPs. IHP will probably contain sensitive or confidential information. The sharing, and storing of information will comply with the Data Protection Act 1998 and not breach the privacy rights of or duty of confidence owed to the individuals.

### **16.5 The learner's role in managing their own healthcare needs**

Learners who are competent to do so should be encouraged to take responsibility for managing their own medicines and procedures. This should be reflected within the learner's IHP.

Where possible, learners should be allowed to carry their own medication and relevant devices, or be able to quickly access their medication. Some learners may require an appropriate level of supervision.

If a learner refuses to take their medication or carry out a necessary procedure, staff cannot force them to do so, but follow the school's defined arrangements, agreed in the IHP. Parents should be informed as soon as possible so that an alternative arrangement can be considered and health advice should be sought where appropriate.

## **17. Unacceptable Practice**

### **It is not acceptable practice:**

- Prevent learners from attending education or reduce hours due to their healthcare needs, unless this would be likely to cause harm to the learner or others
- Prevent learners from easily accessing their inhalers, medication and administering of their medication when and where necessary
- Assume every learner with the same condition requires the same treatment
- Ignore the views of the learner or their parents/ carers, or ignore healthcare evidence or opinion
- Send learners with healthcare needs home frequently for reasons associated with their medical condition or prevent them from staying for normal school activities, including lunch, unless this is specified in their IHP or risk assessment
- Send a learner that becomes ill or needs assistance to the office or medical room unaccompanied or with someone who is unaware of the learners' needs or unable to properly monitor them
- Penalise a learner for their attendance record if their absences are related to their medical condition e.g. hospital appointments
- Prevent learners from drinking, eating or taking toilet or other breaks whenever they need to in order to manage their medical condition effectively
- Prevent, or create unnecessary barriers for learners from participating in any aspect of Rumney Primary School life
- Request adjustments or additional time for a learner at a late stage

Please refer to the 'Unacceptable Practice' section in the Welsh Government's 'Supporting Learners with Healthcare Needs' statutory guidance.

## **Appendix 1 - Outline of legal framework**

There are various duties on schools and local authorities which are relevant to safeguarding the welfare of children and young people with healthcare needs in the educational context. The main provisions are outlined below.

This is not an exhaustive list of the law relevant to this subject. Nor is it an authoritative statement or description of the law, which only courts can give. The descriptions below are summaries of the main relevant provisions. For any particular duty, there will be further statutory provisions and there may be case law (and possibly such developments after the issue of this guidance), affecting the meaning of the provisions (e.g. defining terms), or how a function is to be exercised (e.g. matters to which the person exercising the function must have regard). It should not be relied upon as a substitute for seeking legal advice or reading the actual provisions. Legislation can be found at [www.legislation.gov.uk](http://www.legislation.gov.uk) though it is not all in revised and up to date form.

## General

As part of the common law, those responsible for the care and supervision of children and young people, including teachers, and other staff in charge of children, owe a duty of care to act as any reasonably prudent parent would in relation to their own children.

A person without parental responsibility for a child or young person, but with the care of that child, may do what is reasonable in all the circumstances of the case for the purpose of safeguarding or promoting the child's welfare. This is subject, for example, to a court order prohibiting certain steps being taken in relation to that child or young person without the Court's consent (**Section 3(5) of the Children Act, 1989**)<sup>2</sup>.

## Statutory duties on governing bodies of maintained schools

- In discharging their functions relating to the conduct of the school, governing bodies of maintained schools (including maintained nursery schools) must promote the well-being of pupils at the school (**Section 21(5) of the Education Act, 2002**)<sup>3</sup>.
- Governing bodies of maintained schools (including maintained nursery schools) must make arrangements for ensuring that their functions relating to the conduct of the school are exercised with a view to safeguarding and promoting the welfare of children and young people (i.e. those under 18) who are pupils at the school (**Section 175(2) of the Education Act, 2002**). In considering what arrangements are required, the governing body is to have regard to any guidance by the Welsh ministers<sup>4</sup>(**Section 175(4) of the Education Act, 2002**). Governing bodies are also subject to duties under the **Equality Act, 2010**<sup>5</sup> – see the section below for more details.

## Statutory duties on local authorities

- Local authorities have general functions in relation to providing education for their area (*in particular sections 13 to 14, 15A, 15B of the Education Act, 1996*)<sup>6</sup>.

---

<sup>2</sup>**Children Act, 1989** - <http://www.legislation.gov.uk/ukpga/1989/41/contents/enacted>

<sup>3</sup>**Education Act, 2002** - <http://www.legislation.gov.uk/ukpga/2002/32/contents>

<sup>4</sup> This power is now vested in the Welsh Ministers, rather than the National Assembly for Wales, by virtue of paragraph 30 of Schedule 11 to the **Government of Wales Act, 2006** - <http://www.legislation.gov.uk/ukpga/2006/32/contents>

<sup>5</sup>**Equality Act, 2010** - <http://www.legislation.gov.uk/ukpga/2010/15/contents>

<sup>6</sup> **Education Act, 1996** - <http://www.legislation.gov.uk/ukpga/1996/56/contents>

- A local authority must make arrangements for the provision of suitable education (at school or otherwise), for children of compulsory school age who may now otherwise receive it for any period due to illness, exclusion from school or otherwise (*Section 19(1) of the **Education Act, 1996***). For young persons (i.e. those who are over compulsory school age but under the age of 18), local authorities have a power (rather than a duty), to make such arrangements in those circumstances (*Section (4) of the **Education Act, 1996***). In determining what arrangements to make under *Section 19(1) or 19(4)*, in the case of any child or young person, the local authority must have regard to any guidance given by the Welsh ministers.
- A local authority must make arrangements for ensuring that their education functions are exercised with a view to safeguarding and promoting the welfare of children and young people (i.e. under 18 years old), (*Section 175(1) of the **Education Act, 2002***).

In considering what arrangements are required, the local authority is to have regard to any guidance given by the Welsh Ministers (see footnote 3 on previous page), (*Section 175 (4) of the **Education Act, 2002***). Some of this guidance is issued under *Section 175(4)* – it is marked in bold font.

- Local authorities have general duty to safeguard and promote the welfare of children and young people in need within their area (and so far as consistent with that, to promote the upbringing of those children by their families) by providing a range and level of services appropriate to those children’s needs (*Section 17 of the **Children Act 1989***).
- Local authorities must make arrangements to promote cooperation between various persons and bodies, including a local health board for an area within the local authority’s area and an NHS Trust providing services in the area. The arrangements are to be made with a view to:
  - Improving the well-being of children and young people within the area;
  - Improving the quality of care and support for children and young people provided in the area (when amendments made by the **Social Services and Well-Being (Wales) Act, 2014** come into force)<sup>7</sup>.
  - Protecting children and young people who are experiencing or at risk of, abuse and other harm (when those amendments come into force), (*Section 25 of the **Children Act, 2004***)<sup>8</sup>.
- **The Education (School Premises) Regulations, 1999, S.I. 1999/2**<sup>9</sup> set out requirements (for which local authorities are responsible) regarding facilities at maintained schools. These include requirements regarding accommodation for medical examination and treatment of pupils and the care of sick or injured pupils (*Regulation 5*).
- Local authorities also have duties under the **Equality Act, 2010** – see below.

---

<sup>7</sup> **Social Services and Well-Being (Wales) Act, 2014** - <http://www.legislation.gov.uk/anaw/2014/4/contents/enacted>

<sup>8</sup> **Children Act, 2004** - <http://www.legislation.gov.uk/ukpga/2004/31/contents>

<sup>9</sup> **Education (School Premises) Regulations, 1999, S.I. 1999/2** - <http://www.legislation.gov.uk/uksi/1999/2/contents/made>

## The Equality Act, 2010

Disability is a protected characteristic under the **Equality Act, 2010**<sup>10</sup>. Some learners with healthcare needs may be disabled for the purposes of that Act; others may not be. There are various duties under the **Equality Act, 2010** which are relevant in the context of learners with healthcare needs who are disabled.

The responsible body of a school must not discriminate, harass nor victimise disabled pupils and in some cases, other particular persons. The responsible body is also subject to a duty to make reasonable adjustments (*Section 85 of the Equality Act, 2010*).

Local authorities must prepare and implement an accessibility strategy in relation to schools for which they are the responsible body. This is a strategy for (over a particular period):

- a) Increasing the extent to which disabled pupils can participate in the schools' curriculums;
- b) Improving the physical environment of the schools for the purpose of increasing the extent to which disabled pupils are able to take advantage of education and benefits, facilities or services provided or offered by the schools;
- c) Improving the delivery to disabled pupils of information which is readily accessible to pupils who are not disabled (*paragraph 1 of Schedule 10 to the Equality Act, 2010*).

The responsible body of a school must prepare and implement an accessibility plan. Such a plan involves the same content as an accessibility strategy except that it relates to the particular school (*Paragraph 3 of Schedule 10 to the Equality Act, 2010*).

In relation to a maintained school and maintained nursery, the responsible body is the local authority or the governing body. In relation to a pupil referral unit, it is the local authority.

Local authorities and the governing body of local authority maintained educational establishments (e.g. maintained schools) are subject to the public sector equality duty. This requires them, in the exercise of their functions, to have due regard to particular matters related to equality (*Section 149*). They are also under specific duties for the purpose of enabling better performance of the public sector equality duty (**Equality Act, 2010, (Statutory Duties) (Wales) Regulations, 2011 S.I. 2011/1064**).

## Other relevant provisions

The **Learner Travel (Wales) Measure, 2008**<sup>11</sup> places duties on local authorities and governing bodies in relation to home-school transport.

The **Data Protection Act, 1998**<sup>12</sup> regulates the processing of personal data, which includes the holding and disclosure of it.

---

<sup>10</sup>**Equality Act, 2010** - <http://www.legislation.gov.uk/ukpga/2010/15/contents>

<sup>11</sup>**Learner Travel (Wales) Measure, 2008** - <http://www.legislation.gov.uk/mwa/2008/2/contents>

<sup>12</sup>**Data Protection Act, 1998** - <http://www.legislation.gov.uk/ukpga/1998/29/contents>

The **Misuse of Drugs Act, 1971**<sup>13</sup> and regulations made, deal with restrictions (for example, concerned with supply and possession), on drugs which are controlled. Learners may be prescribed controlled drugs.

## Useful relevant legislation for England and Wales

The legislation listed below can be referred to clarify the main provisions relevant to children and young people with healthcare needs.

- ❖ **Children and Families Act, 2014 (Section 100)**<sup>14</sup> – places a duty on governing bodies of maintained schools, proprietors of academies and management committees of PRUs to make arrangements for supporting pupils at their school with medical conditions.
- ❖ **Section 21 of the Education Act, 2002**<sup>15</sup> – provides that governing bodies of maintained schools must, in discharging their functions in relation to the conduct of the school, promote the wellbeing of pupils at the school.
- ❖ **Section 175 of the Education Act, 2002** – provides that governing bodies of maintained schools must make arrangements for ensuring that their functions relating to the conduct of the school are exercised with a view to safeguarding and promoting the welfare of children who are pupils at the school. Paragraph 7 of Schedule 1 to the Independent School Standards (England) Regulations 2010 set this out in relation to academy schools and alternative provision academies.
- ❖ **Section 3 of the Children Act, 1989**<sup>16</sup> – provides a duty on a person with the care of a child (who does not have parental responsibility for the child) to do all that is reasonable in all the circumstances for the purposes of safeguarding or promoting the welfare of the child.
- ❖ **Section 17 of the Children Act, 1989** – gives local authorities a general duty to safeguard and promote the welfare of children in need in their area.
- ❖ **Section 10 of the Children Act, 2004**<sup>17</sup> – provides that the local authority must make arrangements to promote cooperation between the authority and relevant partners (including the governing body of a maintained school, the proprietor of an academy, clinical commissioning groups and the NHS Commissioning Board, with a view to improving the wellbeing of children, including their physical and mental health, protection from harm and neglect, and education. Relevant partners are under a duty to cooperate in the making of these arrangements.
- ❖ **Equality Act, 2010**<sup>18</sup> – the key elements are as follows:
  - They **must not** discriminate against, harass or victimise disabled children and young people

---

<sup>13</sup>**Misuse of Drugs Act, 1971** - <http://www.legislation.gov.uk/ukpga/1971/38/contents>

<sup>14</sup><http://www.legislation.gov.uk/ukpga/2014/6/contents/enacted>

<sup>15</sup><http://www.legislation.gov.uk/ukpga/2002/32/contents>

<sup>16</sup><http://www.legislation.gov.uk/ukpga/1989/41/contents>

<sup>17</sup><http://www.legislation.gov.uk/ukpga/2004/31/contents>

<sup>18</sup><http://www.legislation.gov.uk/ukpga/2010/15/contents>

- They **must** make reasonable adjustments to ensure that disabled children and young people are not at a substantial disadvantage compared with their peers. This duty is anticipatory: adjustments must be planned and put in place in advance, to prevent that disadvantage
- ❖ **Education Act, 1996, Chapter 1 (Special Educational Needs)**<sup>19</sup>
- ❖ **Care Standard Act, 2000**<sup>20</sup>
- ❖ **Health and Safety at Work Act, 1974, Section 2**<sup>21</sup> – and the associated regulations, provides that it is the duty of the employer (local authority, governing body or academy trust) to take reasonable steps to ensure that staff and pupils are not exposed to risks to their health and safety.
- ❖ **Misuse of Drugs Act, 1971**<sup>22</sup> – and associated regulations the supply, administration; possession and storage of certain drugs are controlled. Schools may have a child who has been prescribed a controlled drug.
- ❖ **Medicines Act, 1968**<sup>23</sup> – specifies the way that medicines are prescribed, supplied and administered within UK and places restrictions on dealings with medicinal products, including their administration.

## Other relevant legislation

- ❖ **Every Child Matters, 2003**<sup>24</sup>
- ❖ **UN Convention on the Rights of the Child, 1989**<sup>25</sup>
- ❖ **Management of Health and Safety at Work Regulations, 1999**<sup>26</sup>
- ❖ **Control of Substances Hazardous to Health Regulations, 2002**<sup>27</sup>
- ❖ **The Regulatory Reform (fire safety) Order, 2005**<sup>28</sup>
- ❖ **Chronically Sick and Disabled Persons Act, 1970**<sup>29</sup>

## **Appendix 2 – Forms**

FORM 1: Contacting Emergency Services

FORM 2: Health Care Plan

FORM 3: Parental agreement for Rumney Primary School to administer medicine

FORM 4: Record of medicines administered to all children and young people

FORM 5: Request for child to carry his/her own medicine

FORM 6: Medication/healthcare incident report

## FORM 1: Contacting Emergency Services

Request for an Ambulance:

Dial 999, ask for ambulance and be ready with the following information

1. Your telephone number 02920 791345
2. Give your location as follows  
Rumney Primary School, Wentloog Road, Rumney, Cardiff
3. State that the postcode is CF3 3HD
4. Give exact location in the school
5. Give your name
6. Give name of child and a brief description of child's symptoms
7. Inform Ambulance Control of the best entrance and state that the crew will be met and taken to
8. Don't hang up until the information has been repeated back.

Speak clearly and slowly and be ready to repeat information if asked

Put a completed copy of this form by telephones in the school

**FORM 2: Health Care Plan**

**Name of School/setting**

**Child's name**

**Group/class/form**

**Date of birth        /    /**

**Child's address**

**Medical diagnosis or condition**

**Date            /    /**

**Review date        /    /**

**Contact member of staff**

**Family Contact Information**

**Name**

**Phone no. (work)**

**Home**

**Mobile**

**Clinic/Hospital Contact**

**Name**

**Phone No**

**G.P**

**Name**

**Phone No**

**Describe medical needs and give details of child's symptoms**

**Daily care requirements (eg before sport/at lunchtime/home/school trips)**

**Is there any further information which should be known with regard to the administration of the above provision which needs to be considered? e.g. Emotional, Social Need, Awareness of their condition, development**

**Describe what constitutes an emergency for the child, and the action to take if this occurs**

**Who is responsible in an emergency? (state if different for off-site activities)**

**Form copied to:**

**Signed by:**

**Date:**

**Parents**

**Head teacher/Nominated person**

The school will not give your child medicine unless you complete and sign this form

Name of child

Date of birth

Year Group and Class

Medical condition or illness

Name and strength of medicine

Expiry date

How much to give (i.e.) dose to be given

When to be given

Self-administration appropriate

Any other instructions

Are there any side effects that the school needs to know about?

Number of tablets/quantity to be given to school

Note: Medicines must be in the original container and labelled with the child's name as dispensed by the pharmacy

Emergency contact name

Daytime telephone number

Relationship to child

Name and phone number of GP

Agreed review date to be initiated by [name of member of staff]

The above information is, to the best of my knowledge, accurate at the time of writing and I give consent to school staff administering medicine in accordance with the school policy. I will inform the school immediately, in writing, if there is any change in dosage or frequency of the medication or if the medicine is stopped.

Name of parent / carer (print)

Date      Signature

If more than one medicine is to be given a separate form should be completed
